## PROFESSIONAL SUMMARY

Motivated and detail-oriented **Computer Science Engineering graduate (2026)** with a strong foundation in **Java, Spring Boot, Data Structures and Algorithms, OOP, and SQL**. Hands-on experience in developing backend applications, REST APIs, and database-driven web applications through internships and real-time projects. Familiar with **React, JavaScript, Hibernate, and PostgreSQL**, with a strong interest in software development and problem-solving. Eager to contribute technical skills and grow as a Software Engineer.

## TECHNICAL SKILLS

**Languages:** Java, Python (Basics).
**Frontend:** HTML5, CSS3, Bootstrap, JavaScript, React.js.
**Backend:** SpringBoot, Hibernate, JDBC, JPA, Flask, REST APIs.
**Database:** SQL server, MySQL, PostgreSQL, Firebase.
**Tools & Platforms:** Git, GitHub, VS Code, Eclipse, IntelliJ IDEA, Postman.
**Concepts:** Object-Oriented Programming, Data Structures & Algorithms, Agile Scrum, SDLC, DBMS, Operating System, Computer Networks, Agile (SCRUM).
**Soft Skills**: Problem Solving, Communication, Analytical Thinking, Active Learning, Team Collabration, Requirement Analysis.

## INTERNSHIPS & COURSE

**Java Software Developer Internship |** *Infosys SpringBoard 7.0 (B1)* ***Jun 2026 – Aug 2026***

- Developed backend modules for a **Workforce Knowledge Intelligence Platform** using **Java, Spring Boot, Spring Data JPA, and PostgreSQL**, following object-oriented programming principles and layered architecture.
- Implemented features for **Employee Assessments, Skill Gap Analysis, Analytics, and Reports**, integrating REST APIs with database operations.
- Worked on entity relationships, repository operations, data retrieval, and report generation while maintaining clean, modular, and reusable code.
- Participated in debugging, testing, and integrating application modules to support reliable backend functionality.

**Java Full Stack Development |** *Wipro – TalentNext* ***July 2025 – Oct 2025***

- Completed hands-on training in Java Full Stack Development covering **Core Java, Advanced Java, Spring Boot, SQL, HTML, CSS, JavaScript, and React**. Developed full-stack applications using REST APIs and relational databases.
- Practiced Agile Scrum methodology through structured assessments and collaborative exercises. Prepared technical documentation and implemented best coding practices.

## KEY PROJECTS

**Skin Cancer Diagnosis System** | *TensorFlow · CNN · Flask · Python · Web Technologies*

- Developed a responsive web application using HTML5, CSS3, JavaScript, Flask, and TensorFlow for image-based skin disease prediction.
- Designed and integrated REST APIs for real-time disease classification and result visualization. Implemented responsive UI, client-side validation, debugging, and testing to improve application performance and user experience. Used Git for version control and project management.

**Organizational Knowledge Gap Intelligence Platform** | *Java · Spring Boot · React.js · PostgreSQL· Bootstrap · Web Technologies*

- Developed a web-based platform using **Java, Spring Boot, React, and PostgreSQL** to manage employee assessments and identify skill gaps.
- Implemented **Analytics and Reports** modules to analyze skill gaps and provide insights for data-driven employee learning and development.

## EDUCATION

**B.E. Computer Science & Engineering (2022–2026)**
SNS College of Technology
CGPA: 9.34 / 10

**HSC:** 91% (2022) | **SSLC:** 78% (2020)
Vijayalakshmi Matric Hr Sec School

## CERTIFICATIONS

- Software Engineering | Agile (SCRUM) | DBMS | Java & DSA
  ***Infosys Springboard***
- Microsoft Azure AI
  ***Microsoft***
- Digital Application Fundamentals – STEM
  ***NASSCOM***
- Java Full Stack
  ***Wipro TalentNext***
