MEGAVARSHINI A

Software Developer | Java | Python | Full Stack Development | AI/ML Enthusiast

megavarshini3012@gmail.com| Linkedin | Github | 8148447294 |

CAREER OBJECTIVE:

Detail-oriented and motivated **Computer Science undergraduate** with strong foundations in **Java, Python, Data Structures & Algorithms, Object-Oriented Programming, DBMS, Web Development, and Backend Technologies**. Hands-on experience through **internships and projects** in software development, API integration, machine learning, and secure application design. Strong in **problem-solving, debugging, analytical thinking, and teamwork**, with a keen interest in building scalable digital solutions.

SKILLS:

Programming Languages: Python, Java
Web Technologies & Backend: HTML, CSS, Javascript, SQL, Firebase, Springboot, API Integration, React, Node.js
Domain Expertise: OOPS, Data Structures & Algorithms, DBMS, Software Development Lifecycle, MongoDB.
Tools & Platform: Github, Flutterflow, Figma, Tensorflow, Flask
Soft Skills: Problem-solving, Analytical Thinking, Team Collaboration, Adaptability, Time Management, Communication.

INTERNSHIPS & COURSE:

Java Developer Internship (Aug 2025 – Sept 2025)
VaultOfCodes - in collab with AICTE

- Strengthened core Java programming skills with focus on OOP concepts, control flow, string handling, and problem-solving.
- Developed a Text Encoder and Decoder application to implement logic building and basic cryptographic transformations.

Java Full Stack Development Course (July 2025 – Oct 2026)
Wipro - TalentNext

- Completed Java Full Stack Development training under Wipro TalentNext, gaining hands-on experience in Core Java, Advanced Java, Spring Boot, HTML, CSS, JavaScript, and database integration for end-to-end application development.
- Successfully cleared 4 structured assessments focused on full-stack development concepts, demonstrating strong problem-solving skills and the ability to build scalable, real-time web applications using frontend and backend technologies.

Python Developer Internship (Nov 2024 – Dec 2024)
VaultOfCodes

- Developed a Secret Code Generator using Python to implement string manipulation and logical transformation techniques.
- Strengthened fundamentals in Python programming, CLI application development, debugging and reusable logic implementation.

PROJECTS

1.Skin cancer Diagnosis System using ML & Design Thinking Framework | *Python, TensorFlow, Flask*
Developed an AI-powered skin disease classification system using TensorFlow and Flask. This is a web-based application capable of classifying 8 different skin conditions from image input. Integrated image upload, prediction pipeline, and result display for a user-friendly diagnosis workflow. Achieved 85%+ classification accuracy, demonstrating practical application of machine learning in healthcare.

2.Securevault | Python
Designed and developed a Python-based Data Leakage Prevention (DLP) system to monitor sensitive data movement. Implemented monitoring mechanisms for clipboard activity, files, emails, and USB-based data transfers. Focused on secure application logic, event tracking, and real-time detection workflows.

3.AI Travel Planner | *Python, Flask, REST APIs*
Developed a personalized travel itinerary recommendation system using Python, Flask, and API integration. Created logic to generate user-specific destination and travel plans based on preferences and interests. Implemented recommendation workflows, prompt engineering, and efficient data handling. Improved relevance and usability of generated recommendations through preference-based filtering.

EDUCATION:

B.E. Computer Science and Engineering (2022 - 2026)
CGPA: 9.34 / 10
SNS College of Technology
HSC (2021 - 2022) – *91%* & **SSLC (2019 - 2020)** – *78%*
Vijayalakshmi Matric Hr Sec School

CERTIFICATIONS

- **Infosys Springboard –** Software Engineering, Agile (SCRUM), Java & DSA, DBMS.
- **TCS iON Career Edge -** Young Professional
- **Wipro TalentNext** certified Java Full Stack
- **Oracle** Cloud Infrastructure certified AI Foundation Associate
- **Microsoft** certified Azure AI Fundamentals

ACHIEVEMENTS & LEADERSHIP:

- **Best Paper Award @ NCADIET'25 –** National Conference on AI Driven Innovation in Engineering and Technology (2025)
- **First Place – ₹10,000 Prize** in Project Expo 2022
- **Best Volunteer Award –** YRC SNSCT (2022 – 2026)
- **Class Topper Award –** 2023, 2025, 2026.
- Organized bootcamp events and participated in social awareness initiatives
